

Additional Time and Prorated Fees

Additional time spent with your provider past the allotted time (which applies to both the initial consult and follow up visits) is charged at a prorated fee based on the provider's respective hourly rate, as listed below. The appointment time will begin when your appointment is scheduled to start, so please arrive at your appointment 5-10 minutes in advance to allow us to get you checked in and seated in a timely manner. For example, if you are scheduled at 9am for a new patient consultation, which lasts 90 minutes, any time spent with the provider past 10:30am will be prorated at a fee consistent with the provider's respective hourly rate. Payment is accepted in the form of cash, check, and major credit cards.
