

Supplement Policy

Why we sell Nutritional Supplements and How we Price Them?

We recommend nutritional supplements for a lifestyle modification. This approach is central to the well-researched and integrative practice of functional medicine. We purchase high quality nutritional products from the top nutritional research laboratories. We price our Supplements based on recommended affiliated companies. Any profits gained from the sale of the supplements will then be used for expenses within the office. We hope that you understand our approach in healing, health and longevity. If we are unable to provide a specific supplement you are looking for please don't hesitate to ask as there are other ways we may be able to get them.
